

A Network of Capabilities and Solutions for Healthcare

Our solutions can help you control your operational costs, increase system reliability and improve your competitiveness. GE has the insight and experience to cover your needs over the entire life cycle of your electrical and mechanical systems.

Now, more than ever, you need reliable performance from your energy systems. GE can provide the knowledge, resources and processes to meet your product and service needs.

On Demand Services

- 24 x 7 x 365 Emergency Services
- Installation, Start-up & Commissioning
- Feasibility/Engineering Studies
- Assessment/Inspection/Testing
- Consulting - Power, Drives, Energy
- Outages
- Repair and Product Replacement
- Parts - New and Remanufacture

Arc Flash Mitigation

- Arc Flash Hazard Analysis
- HRC Labels
- Arc Flash Training
- Remote Racking Devices
- EntelliGuard® TU Retrofit Kits
- Arc Vault™ Protection System

Training for Engineering and Maintenance Personnel

- Electrical Safety
- Drives & Control
- Power Equipment
- Power Management

Power Delivery

- Power System Upgrades and Retrofits
- Transformer Services
- Breaker and Relay Testing Services
- Power System Studies
 - Load Flow
 - Harmonic
 - Protective Relays
- Automatic Transfer Systems
- Substation Design/Build/Repair

A Network of Capabilities and Solutions for Healthcare

GE Energy is your source for quality products and services, strong project management expertise, broad service offerings and a global network of repair facilities and field resources.

Service Agreements

- Maintenance/Service Contracts
- OnSite SupportSM Remote Monitoring & Diagnostics
- Preventive/Planned/Unplanned Maintenance
- Resident Technical Services
- Staffing Services - Multi-Discipline Engineers, Designers, Technicians, CAD and Other Technical Personnel
- Equipment Exchange Programs
- Repair Service Agreements

Emergency and Disaster Recovery Services

- Access To Resources including Engineers, Craft Labor and Technicians
- Equipment Condition Assessments – Power Systems, Drives
 - Repair Coordination
 - Test Equipment
 - Multi-Vendor Expertise
- Specify/Source Replacement Equipment
- Site Management and Logistics
 - Engineering Support
 - Technical Direction
 - Craft Labor

- Communication Command Center
- Installation
- Start-up and Commissioning
- Emergency Repair

Power Utilization

- Energy Consulting–Repowering
- Non-Destructive Testing Services
- Mechanical Equipment Solutions
- Motor Repair, Replace and Upgrading
- AC and DC Drive Systems and Retrofits
- Condition ForecasterTM – Predictive Maintenance for Motors
- PLC, HMI and SCADA Systems
- Remote Monitoring & Diagnostics
- High Speed Load Shedding
- Custom Panel and Skid Manufacturing
- Board Installation and Repair
