

400 & 600A

Reversible interior eliminates the need to specify top or bottom feed

Main breaker or main lug kits allow for field convertibility

Split neutral simplifies wiring and speeds installation

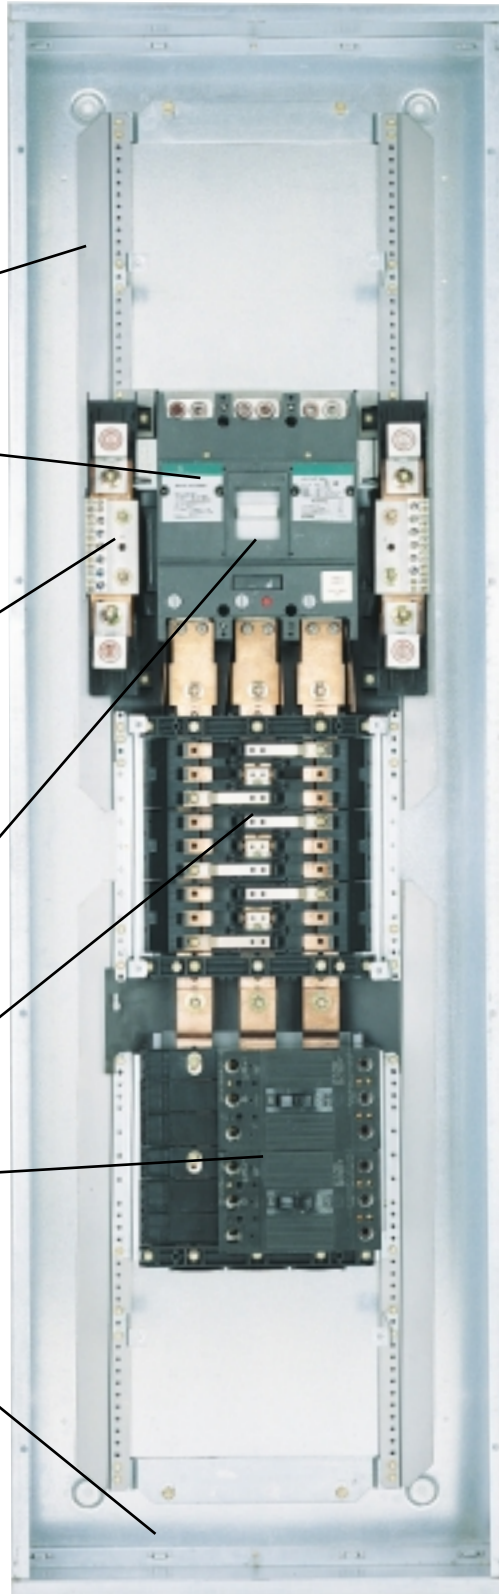

Solid-state Spectra or thermal magnetic breakers meet various application needs

18 & 42 circuit interiors

Feed-thru lugs, or up to 6 poles of subfeeds

Only 2 box sizes, simplifying the selection process

Field installable TVSS kit (see reverse side)

Pro-Stock™ Panelboards

A-Series® Lighting Panels

Unassembled

Bolt on, 400 & 600 Amperes

18 & 42 Branch Circuits

240Vac 1 or 3 Phase or 480Y/277Vac 3 Phase

- Allows for top or bottom feed with main breaker or main lugs
- Flexible family of kits forms basis for over 2500 different lighting panels
- Accepts GE thermal magnetic or Spectra solid-state circuit breakers
- Feed-thru lugs or sub-feed breaker provisions are standard
- Modular kits allow field installation of 200% neutral, service entrance rating, breakers, lugs and TVSS

Standards

UL50, Cabinets and Boxes

UL67, Panelboards

UL489, Circuit Breakers

UL1449, Second Edition, TVSS

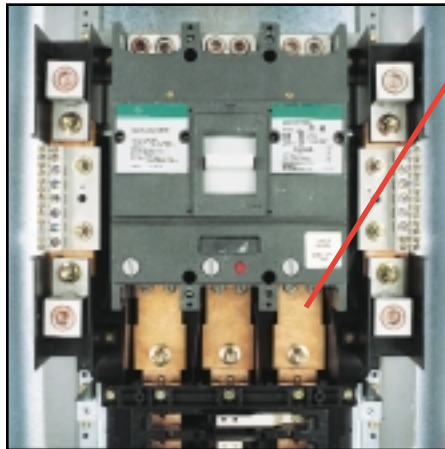

NEMA AB-1, Circuit Breakers

NEMA PB-1, Panelboards

US Federal Spec W-P-115b Panelboards

US Federal Spec W-C-375b/GEN Circuit Breakers

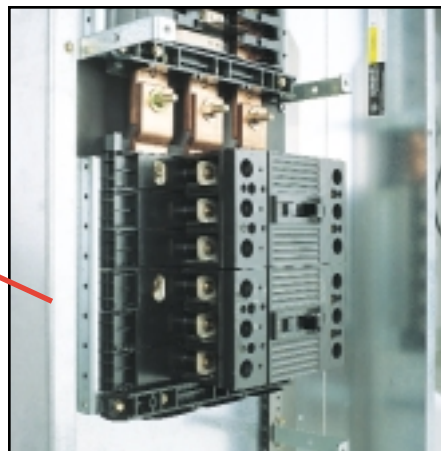

It's easy to see the advantages of Pro-Stock panelboards.

The versatility of Spectra RMS™ breakers delivers multiple benefits:

- Interchangeable trip using rating plugs
- True digital rms sensing
- Universal internal accessories are UL Listed for field installation
- Adjustable instantaneous with short-time tracking function
- CE marked and CSA rated

Up to six poles of 225A subfeed available in breaker styles that include TQD (shown) and Spectra SFHA

Field-installable TVSS (transient voltage surge suppressor), available for all panels at all amperages, features:

- Max surge current rating, 200kA per phase
- Indicating light
- Audible alarm
- Push-to-test
- Optional surge counter
