

Single Phase Transformers Update

GE 1PH Transformers have been updated to allow for a 120x240V secondary option for 2 wire systems and a 120/240V for 3 wire systems. Please see the tables below to select the appropriate transformer for your application. If you are not sure, select the 120/240V secondary transformers as they can serve both 2 wire and 3 wire systems and are the industry standard.

Primary	Secondary	Catalog #	Description	List Price	MPG	MG2
240X480	120X240	9T83B2672	AL 1P 37.5KVA 240X480-120X240 DOE2016	\$5,590.00	TK	TKA
